NIKO

BATHROOMS

Niko Bathrooms is part of the UEL Group which has been distributing plumbing and heating products in Ireland since 1983 from our distribution center in Tallaght, Dublin 24, just off the M50.

We supply the plumbing trade via a comprehensive network of Plumbing/ Heating Wholesalers, Builders Merchants, DIY Stores and Bathroom Showrooms throughout Ireland. Members of the public looking to purchase our products can do so via their local builder's merchant or bathroom showroom. A list of which can be found on our stockist page.

Our diverse range of designs are sourced from leading International manufacturers and are produced to the highest standards.

Our bathroom collection contains an extensive range of durable yet refined ceramics, shower enclosures, and trays, alongside stylish bathroom furniture, taps, shower valves, and accessories. The Niko Bathrooms collection of contemporary and traditional designs offers individuality without compromise on style or quality.

The success of the Group over the past 30+ years is based on high levels of customer service throughout Ireland, backed up with product quality from an extensive range for every plumbing and heating project.

The knowledge of our sales team is second to none and between them, they have amassed over 250 combined years' experience in the plumbing industry in Ireland. Our external sales people cover the 26 counties on a regular basis, supported by an internal sales and distribution team who ensure that orders are speedily assembled and dispatched. Normal delivery to most areas is a next day service.

FURNITURE

A combination of different shapes, new designs and materials gives rise to new aesthetic creations. The new Niko Bathrooms furniture range offers style and function, allowing you to create a multitude of stunning designs.

NEW TECHNOLOGY ENHANCING DESIGN

ROCKLITE

Look out for our
RockLite Symbol

Rocklite
Thin Basins

INNOVATIVE WASHBASIN PRODUCTION ADVANCED TECHNOLOGIES

The innovative thin walled ceramic technology create beautiful, visually light products, which are still extremely durable. With this technology products are designed, sporting unique features that would not be possible with traditional technologies.

ROCKLITE

THIN EDGE

MODIFIED GLAZE
suitable for the thin edges
of thin-walled washbasins

CERAMIC MASS
WITH INCREASED PROPERTIES

Creating unique looks with ceramics is possible thanks to the use of modified mass, which provides greater durability.

The mass is less susceptible to deformation when heat-treated, and is much more durable.

The new development of a modified type of glazed is ideal for the thin edge of thin-walled washbasins. It ensures a perfect coating every time, giving the ceramic surfaces a smooth and evenly white finish.

The washbasins made using the new material feature thin edge, are extremely durable and resistant to impact, as well as being easy to clean. They are also much lighter than traditional washbasins.

ADVANCED TECHNOLOGIES

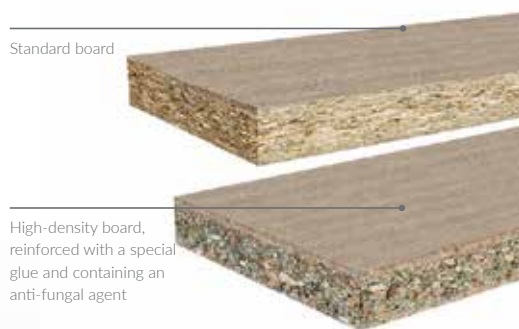

NEW TECHNOLOGY ENHANCING DESIGN

AQUASAFE

Look out for our
AQUASAFE
Symbol

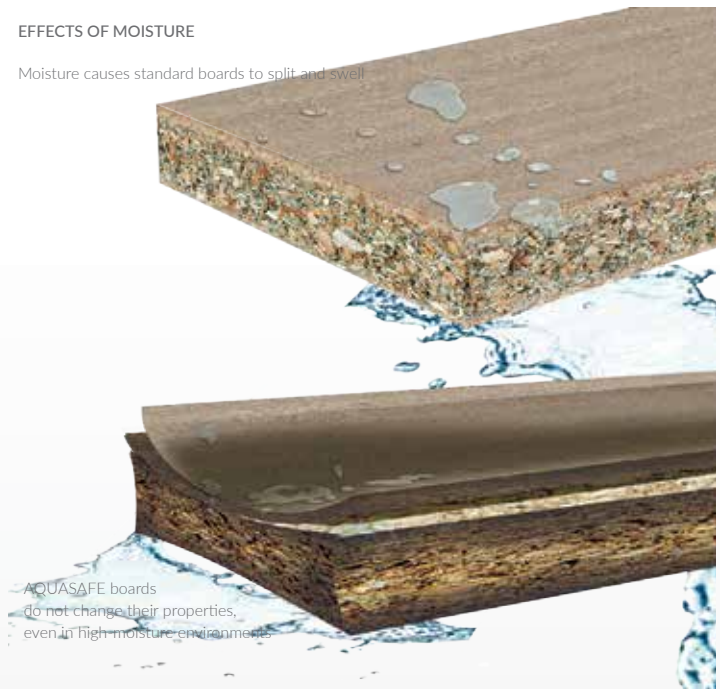

Aqua Safe
Protection on
Furniture

AQUASAFE boards are denser than regular boards, with the fibres being filled with a moisture proofing agent featuring anti-fungal properties. AQUASAFE boards have better absorption and swelling properties than traditional boards.

EFFECTS OF MOISTURE

Moisture causes standard boards to split and swell

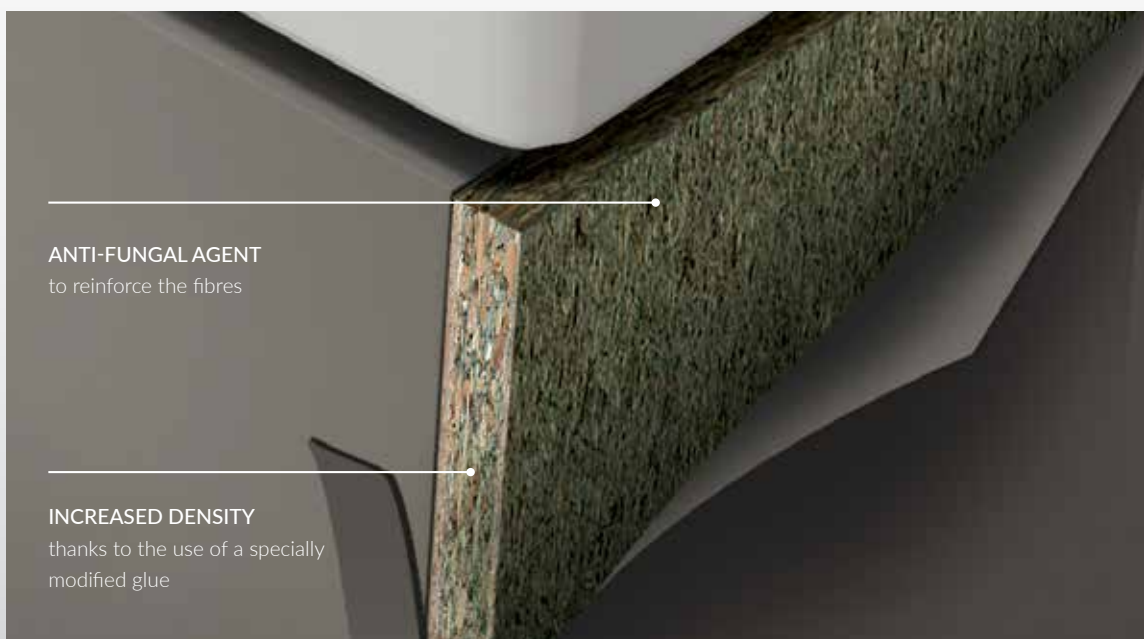

AQUASAFE

INCREASED MOISTURE RESISTANCE TECHNOLOGY

Compared with the materials used in traditional furniture, AQUASAFE boards do not split or swell when in contact with the moisture present in bathrooms. This makes them more durable and stronger, so that the furniture remains in perfect shape for years.

ANTI-FUNGAL AGENT
to reinforce the fibres

INCREASED DENSITY
thanks to the use of a specially
modified glue

FEATURES

- Floor standing unit
- Soft closing doors
- Chrome door handles
- Matching mirror cabinets
- 25mm marble counter top
- 25mm marble splashback
- Under counter basin

CERAMICS

The ceramic installation is often the centre point for design within a bathroom space. Our collection offers multiple options in both WC & basin options.

Choosing a WC

Complete your bathroom renovation with a brand new loo, available in designs to suit almost any bathroom space. You'll find all manner of quality bathroom products from traditional toilets to modern toilets and everything in-between.

Here we discuss some of the toilet options available across our range.

Open Back

An open back toilet is where the back of the pan is not flush against the wall. This allows for easy access to the pipework at the back of the WC.

Low Level

The Low Level is generally a traditional style toilet which has a connecting pipe from the cistern to the pan which adds a visibly pleasing feature. Our low level toilet is operated by a lever flush.

High Level

This is the ultimate in traditional style, with the cistern positioned high up on the wall behind the pan, with an old-fashioned pull chain flush. The cistern is connected to the pan via a long stainless steel pipe.

Fully Shrouded

A fully shrouded toilet, is where the waste pipe and water inlet are fully within the ceramic, so the toilet sits flush against the wall. This makes it easier to keep clean, with no crevices or germ traps.

Comfort Height

Comfort height bowls are 440 - 480 mm high, compared to the standard 400mm of a regular WC. The extra height can be good for the knees and back and can offer benefits to taller people, the elderly and people with mobility problems.

Back to wall

A back to wall toilet is installed directly onto a supportive wall while the cistern can be concealed by a back to wall unit or within the wall itself making them aesthetically pleasing and a space saving option.

Wall Hung

The toilet bowl is mounted onto the wall using a support frame. Like back to wall toilets, the cistern is concealed within the wall, accessible via the flush panel. This makes them aesthetically pleasing and very practical when it comes to cleaning.

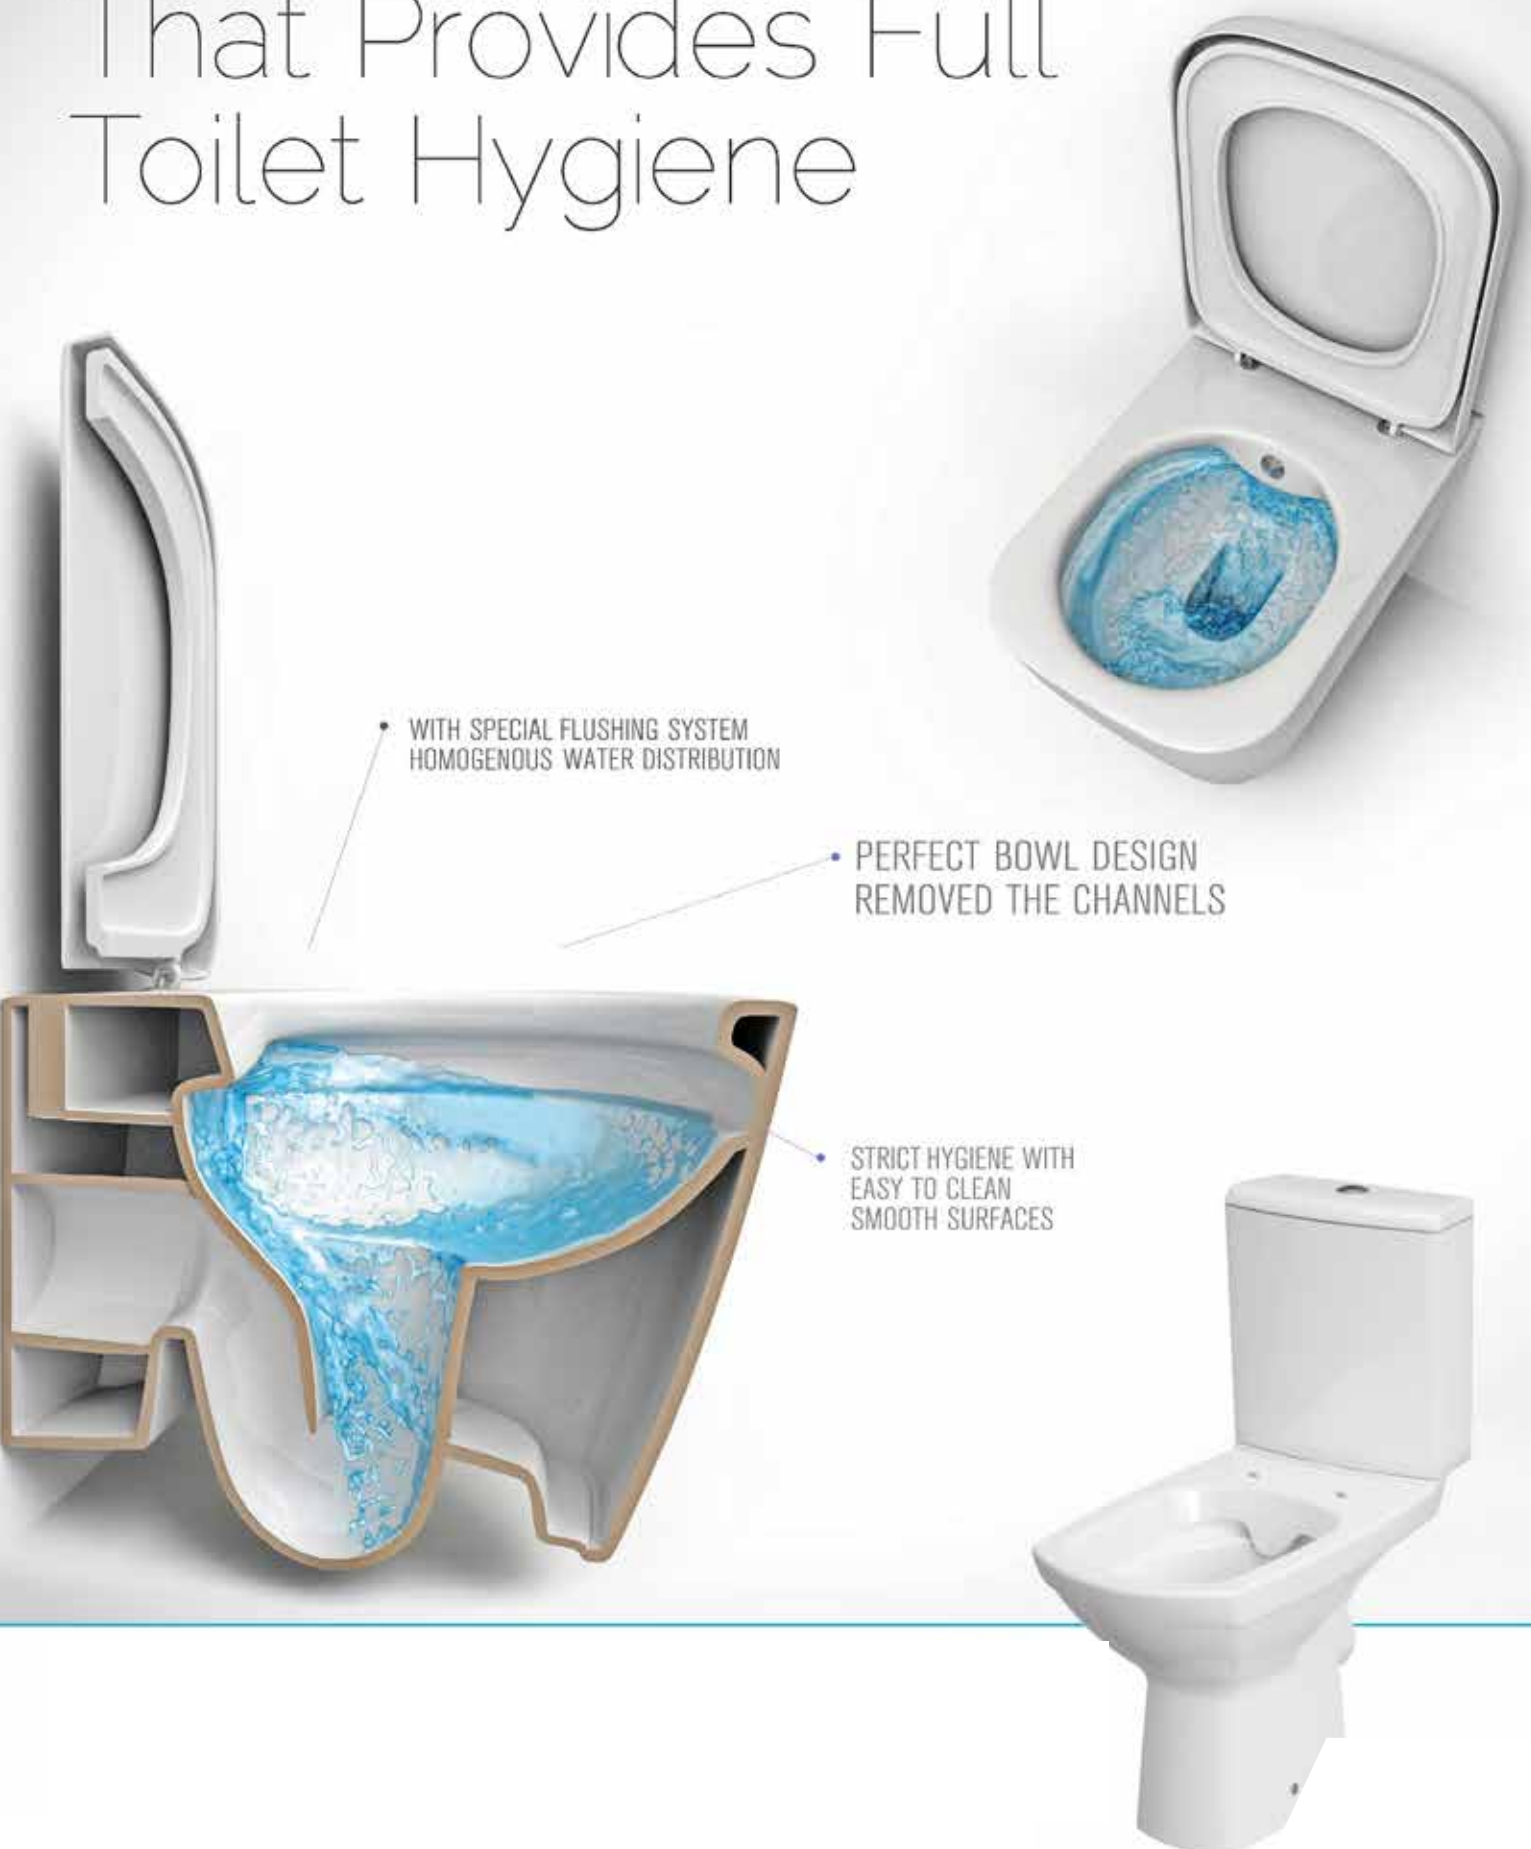

Rimless

A rimless toilet is simply a toilet without a traditional rim. Instead of water flowing into the bowl all the way round the rim, a direct flush technique directs water around the edge of a smooth pan. Rimless toilets are easy to clean and more hygienic than a traditional toilet pan.

RIMLESS TECHNOLOGY

That Provides Full Toilet Hygiene

NEW TECHNOLOGY ENHANCING DESIGN

ROCKLITE

Look out for our
ROCKLITE
Symbol

INNOVATIVE WASHBASIN PRODUCTION ADVANCED TECHNOLOGIES

The innovative thin walled ceramic technology creates beautiful, visually light products, which are still extremely durable. With this technology products are designed sporting unique features that would not be possible with traditional technologies.

ROCKLITE

THIN EDGE

MODIFIED GLAZE
suitable for the thin edges
of thin-walled washbasins

CERAMIC MASS
WITH INCREASED PROPERTIES

Creating unique looks with ceramics is possible thanks to the use of modified mass, which provides greater durability.

The mass is less susceptible to deformation when heat-treated, and is much more durable.

The new development of a modified type of glazed is ideal for the thin edge of thin-walled washbasins. It ensures a perfect coating every time, giving the ceramic surfaces a smooth and evenly white finish.

The washbasins made using the new material feature thin edge, are extremely durable and resistant to impact, as well as being easy to clean. They are also much lighter than traditional washbasins.

Choosing a **back to wall WC** & concealed cistern

Complete your bathroom renovation with a new back to wall toilet, available in designs to suit almost any bathroom space.

Back to wall toilets are simple to install as they sit on the ground. A concealed cistern is then installed in either the wall behind the toilet or in a cistern box which conceals the cistern.

Always consult a plumber before installing.

A photograph of a bathroom interior. In the background, a window is covered with white sheer curtains, letting in bright light. A vase with dried flowers sits on a surface in front of the window. In the foreground, a pink upholstered ottoman with wooden legs is positioned on a light-colored wooden floor. A white towel is draped over the ottoman. In front of the ottoman, a round brass tray holds two glass soap dispensers and a bar of soap.

BATHS

Choose from traditional to free standing, from double ended to single ended, the style that complements your bathroom perfectly to provide the comfort you need. Our extensive range will have something to fit beautifully into your space.

BRASSWARE

Brassware is chosen specifically to complement your choice of ceramics. Choose from traditional, minimalist or designer branded, all manufactured to the highest standards to ensure longevity.

BUILT IN BOX - FOR WALL MOUNTED BASIN MIXER

Compared with the traditional built-in mixer with diverter, the Remer built-in box has additional features that make it an item that was specifically designed for the construction sites needs. However, these boxes are becoming increasingly popular with end users due to their practicality. When designing your new bathroom it is important to consider the development stages for each of your bathroom fixtures. These first fix boxes allow your plumber to get the pipe work ready for the installation of your new basin mixer while you have the time to consider which basin mixer design would suit your bathroom. Then simply choose from the mixer designs below.

AKW ARKA CARE SHOWER VALVE

This gorgeous, simple to use Chrome Mixer Shower provides a stunning centre-piece to any shower. It features an easy-grip shower head with five different spray patterns and simple push buttons to adjust the height of the shower head. This package combines the popular Mixer Shower along with our Mixer Shower Care Accessory Kit which mixes ultimate style and a subtle design along with strong support when showering such as the sturdy stainless steel grab riser rail and extended 2 metre long shower hose which is a great help for assisted showering.

FEATURES

- + Integral stainless steel grab riser rail for additional support and peace of mind
- + Easy grip shower head with grey rubber petals for quick spray pattern adjustment
- + 5 Spray pattern settings for maximum showering comfort
- + Extended 2 meter shower hose ideal for assisted showering
- + Easy push buttons for shower head height adjustments.
- + Soap dish & shelf included as standard and situated within easy reach for user
- + Additional shower head bracket for alternative positioning within the enclosure
- + Hose retaining ring included to prevent shower head being dropped and contaminated
- + 1 metre riser rail can support up to 150kg
- + Fully approved by the Bathroom Manufacturers Association (BMA) as a Water Efficient Product

ELEMENTS SHOWER TRAYS

The Elements range of low profile shower trays are only 40mm high and they lend themselves to the latest bathroom trends and includes all the benefits of a solid cast stone shower tray. These shower trays suit any installation and makes it quick and easy to install.

FEATURES

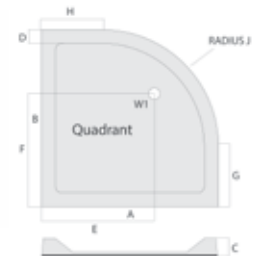

- + 40% Lighter than a high wall stone resin tray
- + Solid cast stone shower tray
- + Made with WRAS approved phthalate free materials
- + 25 years guarantee
- + ABS finish
- + Waste position - W1

All shower trays come with fluidmaster shower waste as standard.

TUFF FORM WETROOM FORMER

A wet room allows you to maximise the available space in your bathroom to create a stylish but practical showering solution. Our Tuff Form shower tray creates a full level access showering solution.

Not only do they create complete level access, they are also 100% watertight. Superior strength and rigidity providing excellent water integrity with comfort and safety underfoot.

FEATURES

- + Suitable for both wooden and concrete floors
- + Works with gravity & pumped wastes
- + Tuff Form formers are trimmable on 3 sides up to 150mm from the waste area
- + The ribbed design of the underside eliminates slippage or float during installation
- + Superior strength and rigidity providing excellent water integrity with comfort and safety underfoot
- + Pre-formed fixing holes
- + Offset waste position to avoid joists pipework
- + Tuff-form depth is 22mm
- + Fully recyclable, made from reusable plastic
- + Tens of thousands of installations worldwide, so it's popular – and proven!

MOBILITY

Everyone should be able to surround themselves with beauty and style and have the choice to personalise their space. This belief is core to the Niko Bathrooms collection of specialist mobility support products. Every piece has been developed with Occupational Therapist and Healthcare Professional input, to deliver a space filled with practical solutions and aesthetic beauty.

BRADDEN SHOWER TRAY

With extensive choice and easy installation, Bradden is a long-term favourite among specifiers, installers and end-users. Unique design offers options for a surface mounted, level access or step in shower enclosure. Suitable for all installation types with no extra support needed. A slip resistant surface makes them safe to use.

FEATURES

- + Suitable for all floor types
- + Quick draining, thanks to a 35mm fall to the waste
- + Integral added strength for extra peace of mind
- + No need for under tray foaming

Maintain level access showering when using floor tiles. Fits under the Mullen® Clamping Strip and tiles. Mullen® is quick and easy to fit.

Features

- + Fully waterproof mouldings
- + Quick installation, saving on time and labour costs
- + Maximum thickness of tiles and adhesive 10.5mm
- + 1800mm (x1) & 1000mm (x1) tiling adaptor strip, Corner Block assembly (x1) & Pack of Fixings/Caps

HALF HEIGHT SHOWER DOORS

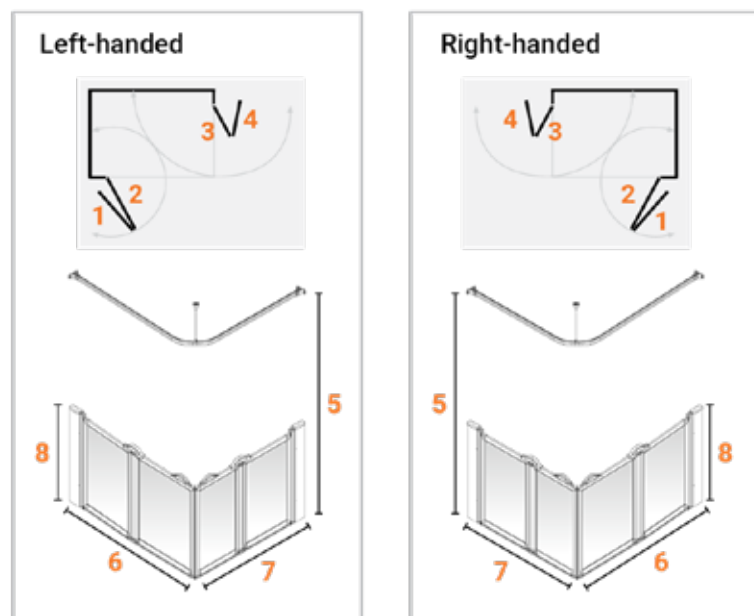

Our complete range of half-height care shower screen solutions for both alcove and corner installations can help you create the perfect showering environment. With lifetime guarantees you can be assured of the best quality available.

Designed and developed with healthcare, installation and technical professionals this range of solutions for tray or wet room installations that provide ease of use, ease of installation and raise the bar on quality to ensure a longer life.

Please note: Bottom door seals are water barriers, not water proof. If using a curtain, it should be long enough to protect the doors seals.

HALF HEIGHT SHOWER DOORS

Features

- + Handed & Non-handed
- + Suitable for shower trays
- + Bi-fold doors to ~6' and ~7' sides
- + L-shaped curtain rail supplied
- + Handles are included with Option E screens
- + Standard 1800mm wide x 1800mm drop shower curtains supplied

FURTHER DOC M PRODUCT INFORMATION

DOC M

Fully compliant to BS8300:2009 guidelines for a unisex accessible WC

2 tap hole wall mounted wash basin

This allows a mixer tap to be fitted left or right handed and with overflow for additional hygiene.

Thermostatic sequential mixer tap

TMV3 approved offering peace of mind to reduce risk of scalding, the thermostat is within the mixer (and not separate, as in the case of others). This reduces the risk of legionella bacteria forming between separate parts.

Easy operational flush handle

Allowing for flushing with elbow or hand. This also offers full and half flush operation for water saving. It comes in a non reflective stain chrome finish and can be fitted left or right handed. conforms to EN 997.

Raised height WC

Set at 460mm high (480mm with toilet seat), its specially designed for wheel chair access. It comes with 4 fixing points.

Ergonomic toilet seat with lid

Metal hinges and lugs secure the pan for easier side transfer.

In some document options its available in high visibility blue got users with impaired vision.

Cistern

Has a screw down lid for security and safety

Grab rails

4 X 600mm long with concealed fixings (tested up to 190kg/ 33 stone weight).

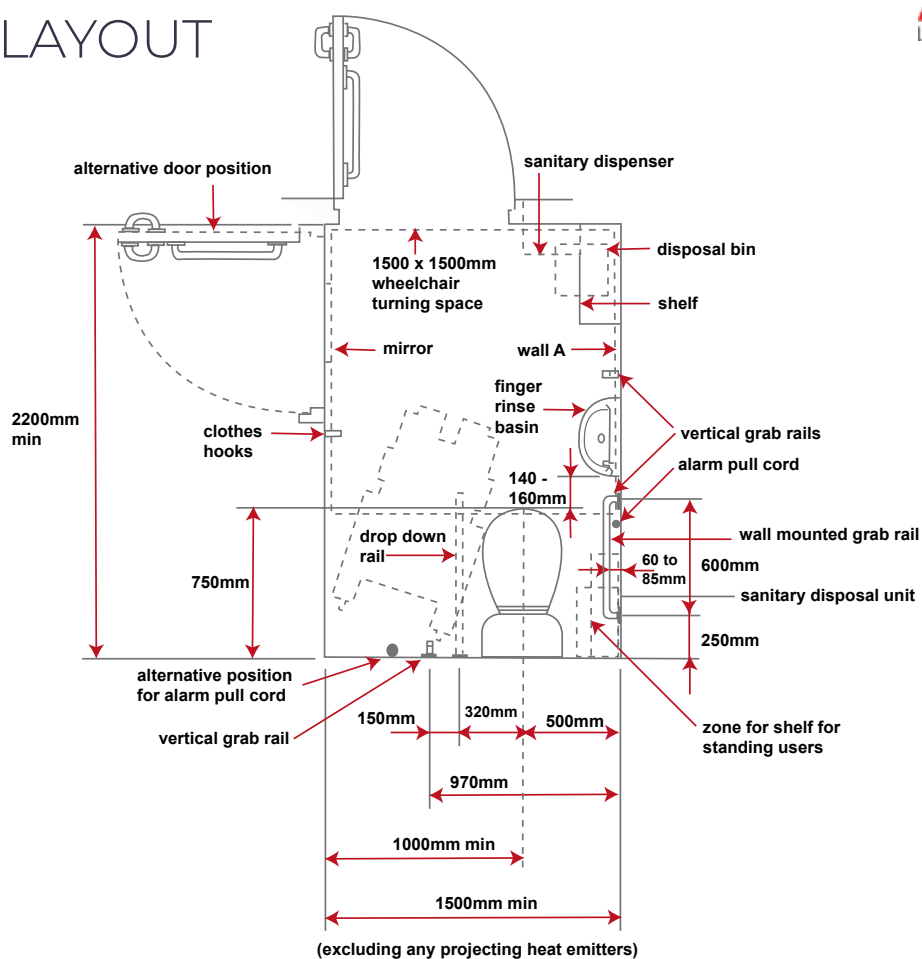

In some document options its available in high visibility blue got users with impaired vision.

Fold up grab rails

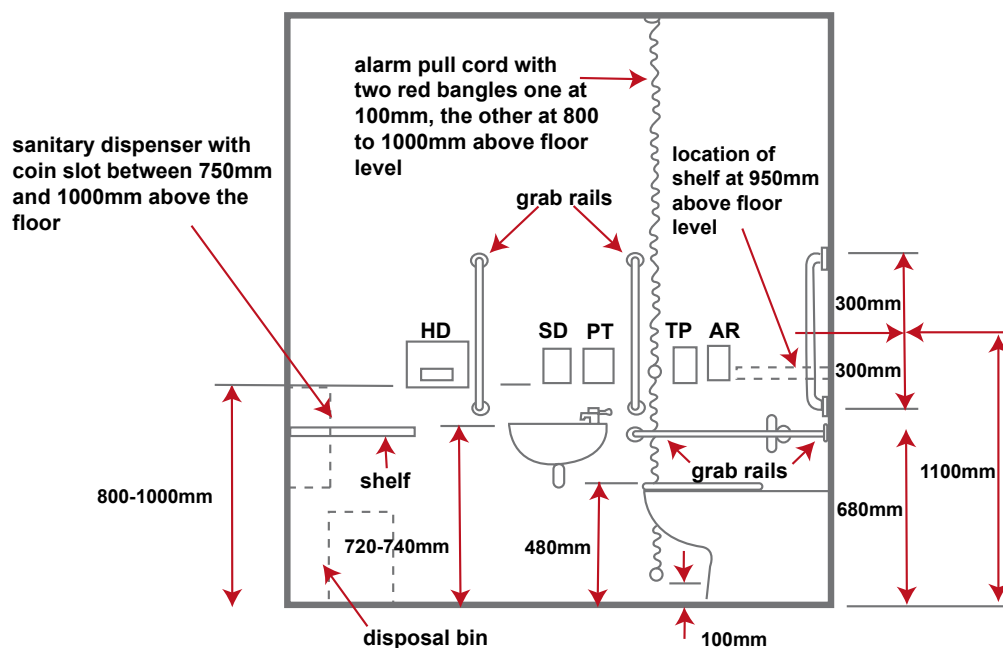

Tested to 190kg/ 33 stone weight. In some doc m options its available in high visibility blue got users with impaired vision.

The image shows a modern bathroom interior. On the left, a white radiator is mounted on a light-colored wall. To its right, a chrome towel warmer is installed, featuring a horizontal bar at the top and a vertical support with a small valve. The floor is made of dark wood. On the right side of the image, a portion of a dark wooden cabinet or vanity is visible. A semi-transparent orange rectangle is overlaid on the middle of the image, containing the text 'HEATING' and a paragraph describing the heating collection.

HEATING

Our Heating Collection provides you with a vast array of traditional, designer and ladder towel warmers in a range of styles and colours to complete your bathroom all the while providing the warmth levels essential for that cosy bath or invigorating shower.

Our showroom is available to the public during the hours specified we do accept walk ins but those with appointments will take priority.

CREATE A BATHROOM YOU DONT WANT TO LEAVE

All prices are recommended retail and include VAT at the current rate. The prices and specifications shown within this catalogue are for information purposes only and as we continually update our products, they may be subject to change without prior notice. E&OE.

The images/photographs included are for guidance purposes only and are limited to the constraints of the printing process. All measurements are in millimetres, unless otherwise stated. This edition supersedes all/any previous editions. Though all of our products carry a guarantee, as stated, which covers against manufacturing defects when used in normal domestic applications (excluding serviceable parts, accidental damage neglect or abuse), please ensure that your product is fitted/installed by a competent and qualified installer and according to the manufacturer's instructions and cleaned and maintained according to the manufacturer's instructions. Certain moveable parts may be subject to wear and tear through usage and are therefore covered for 12 months from installation. The guarantees stated will never cover any consequential loss. Full terms and conditions are available upon request.
