# Our Inspiration

## At Niko Bathrooms we want to Inspire you!

As Ireland's leading Bathroom supplier, we believe that making your bathroom beautiful is inspired by personalisation and combination choices allowing you to plan, design and budget for a bathroom that meets your family's lifestyle and needs. Before starting any bathroom project, most people know 'what they want their bathroom to feel like...' a feeling that creates a space for wellbeing and sanctuary - but they just don't know where to begin.

It starts with setting the mood to achieve that perfect look; our collections are inspired to do exactly that. Whether its contemporary to traditional, we combine design aesthetics with functionality that allow you design your perfect bathroom, from one that uplifts you in the morning to relaxing you in the evening.

Our in-house design team work extensively to bring you the very latest in bathroom designs sourced from leading international brands and manufacturers, produced to the highest quality standards.

Our collections include extensive ranges of durable yet refined ceramics, stylish bathroom furniture, beautifully crafted baths alongside shower enclosures, taps and bathroom heating. Our collections are available nationwide via our stockist that include; bathroom showrooms, retailers, builders merchants and plumbing and heating wholesalers.

We are part of the Uppercross Group who have been distributing plumbing and heating products through our supplier network for the past 40 years.

At our showroom, we have 30+ Bathroom settings over 2 floors and located just off the M50, it's the perfect starting point for anyone looking for **inspirational ideas and advice** when planning their bathroom journey.

# FURNITURE

A combination of different shapes, new designs and materials gives rise to new aesthetic creations. The new Niko Bathrooms furniture range offers style and function, allowing you to create a multitude of stunning designs.

# NEW TECHNOLOGY ENHANCING DESIGN

## ROCKLITE

INNOVATIVE WASHBASIN PRODUCTION ADVANCED TECHNOLOGIES

The innovative thin walled ceramic technology create beautiful, visually light products, which are still extremely durable. With this technology products are designed, sporting unique features that would not be possible with traditional technologies.

Look out for our RockLite Symbol

**ROCKLITE**  
TECHNOLOGY

- Ultra-thin 5-6 mm edges
- Enhanced durability
- Sophisticated and elegant design

Look out for our SILVER PROTECT Symbol

**SILVER PROTECT TECHNOLOGY**  
Long-lasting protection

Lots of harmful bacteria appear in the bathroom every day. It only takes one bacterium to have up to 8 billion of them after 24 hours. The perfect conditions for growth allow them to multiply at an appalling rate. They can be combated with antibacterial agents, but they are replaced by millions of new germs every day. Now, using ceramics from the Larga collection, made with the use of the **SILVER PROTECT** technology, you can effectively get rid of bacteria in your bathroom.

**silverprotect**  
TECHNOLOGY

- Integrated antibacterial effect
- Optimal protection - inhibiting bacterial growth
- Absolute safety for the environment and health
- Reliable protection throughout the entire life cycle of the product

# NEW TECHNOLOGY ENHANCING DESIGN

## AQUASAFE

Look out for our AQUASAFE Symbol

AQUASAFE boards are denser than regular boards, with the fibres being filled with a moisture proofing agent featuring anti-fungal properties. AQUASAFE boards have better absorption and swelling properties than traditional boards.

EFFECTS OF MOISTURE

Moisture causes standard boards to split and swell

AQUASAFE boards do not change their properties, even in high moisture environments

**AQUASAFE**  
INCREASED MOISTURE  
RESISTANCE TECHNOLOGY

Compared with the materials used in traditional furniture, AQUASAFE boards do not split or swell when in contact with the moisture present in bathrooms. This makes them more durable and stronger, so that the furniture remains in perfect shape for years.

**ANTI-FUNGAL AGENT**  
to reinforce the fibres

**INCREASED DENSITY**  
thanks to the use of a specially modified glue

# MERRION

## FEATURES

- Floor standing unit
- Soft closing doors
- Chrome door handles
- Matching mirror cabinets
- 25mm marble counter top
- Under counter basin

## CERAMICS

The ceramic installation is often the centre point for design within a bathroom space. Our collection offers multiple options in both WC & basin options.

## Choosing a WC

Complete your bathroom renovation with a brand new loo, available in designs to suit almost any bathroom space. You'll find all manner of quality bathroom products from traditional toilets to modern toilets and everything in-between.

Here we discuss some of the toilet options available across our range.

### Open Back

An open back toilet is where the back of the pan is not flush against the wall. This allows for easy access to the pipework at the back of the WC.

### Low Level

The Low Level is generally a traditional style toilet which has a connecting pipe from the cistern to the pan which adds a visibly pleasing feature. Our low level toilet is operated by a lever flush.

### High Level

This is the ultimate in traditional style, with the cistern positioned high up on the wall behind the pan, with an old-fashioned pull chain flush. The cistern is connected to the pan via a long stainless steel pipe.

### Semi Shrouded

A semi shrouded toilet, is where the waste pipe and water inlet are semi enclosed within the ceramic, giving access to the waste pipe.

### Fully Shrouded

A fully shrouded toilet, is where the waste pipe and water inlet are fully within the ceramic, so the toilet sits flush against the wall. This makes it easier to keep clean, with no crevices or germ traps.

### Comfort Height

Comfort height bowls are 440 - 480 mm high, compared to the standard 400mm of a regular WC. The extra height can be good for the knees and back and can offer benefits to taller people, the elderly and people with mobility problems.

### Back to wall

A back to wall toilet is installed directly onto a supportive wall while the cistern can be concealed by a back to wall unit or within the wall itself making them aesthetically pleasing and a space saving option.

### Wall Hung

The toilet bowl is mounted onto the wall using a support frame. Like back to wall toilets, the cistern is concealed within the wall, accessible via the flush panel. This makes them aesthetically pleasing and very practical when it comes to cleaning.

### Rimless

A rimless toilet is simply a toilet without a traditional rim. Instead of water flowing into the bowl all the way round the rim, a direct flush technique directs water around the edge of a smooth pan. Rimless toilets are easy to clean and more hygienic than a traditional toilet pan.

# RIMLESS TECHNOLOGY That Provides Full Toilet Hygiene

## NEW TECHNOLOGY ENHANCING DESIGN

### ROCKLITE

INNOVATIVE WASHBASIN PRODUCTION ADVANCED TECHNOLOGIES

The innovative thin walled ceramic technology create beautiful, visually light products, which are still extremely durable. With this technology products are designed, sporting unique features that would not be possible with traditional technologies.

Look out for our  
RockLite Symbol

**ROCKLITE**

## Choosing a **back to wall WC** & concealed cistern

Complete your bathroom renovation with a new back to wall toilet, available in designs to suit almost any bathroom space.

Back to wall toilets are simple to install as they sit on the ground. A concealed cistern is then installed in either the wall behind the toilet or in a cistern box which conceals the cistern.

Always consult a plumber before installing.

### CONCEALED CISTERNS

## Choosing a wall hung WC & support frame

Complete your bathroom renovation with a brand new wall hung toilet, available in designs to suit almost any bathroom space.

A wall hung WC support frame is used as a simple answer to installing the wall mounted toilet in a secure frame which also incorporates a built-in cistern.

Always consult a plumber before installing.

**Carron Baths** are handfinished to the highest quality and the complete range includes Rectangular, Freestanding and Showerbaths, coupled with shower screens, panels and accessories.

# Get Inspired!

Niko Bathrooms are the sole distributor of Carron Baths across the Republic of Ireland.

Carron Baths are hand-finished to the highest quality with the range spanning Rectangular Baths, Freestanding Baths and Showerbaths, coupled with shower screens, panels and accessories.

Here is a selection of some of the most popular choices from the Carron range, featuring the brand new Editions range, This range combines innovation with the latest trends, with an exclusive +Matt Finish - a unique feature that takes acrylic baths to the next level.

**carron**  
THE NAME FOR BATHS

brought to you by

**NIKO**  
BATHROOMS

## What is Carronite?

### The strength of Carronite

**Carronite™ was created by Carron Bathrooms to provide a higher level of comfort, luxury and peace of mind for our customers.**

All Carron Bathrooms baths are hand finished to our exacting standards but only Carronite™ baths, with our unique, patented, triple-layer reinforcement system come with a 30 year guarantee - proof of the confidence we have in Carronite™. Carronite™ baths are stronger and heavier than standard acrylic baths.

The additional finishing layers crafted during the Carronite™ process create a uniquely reinforced product. The added weight requires a bespoke fitting system that only adds to the stability and rigid feel of our Carronite™ baths. These elements combined help deliver the Carronite™ experience.

To see more from the Carron range, scan here for the Bath Book:

#### THE FRAME

Created specifically for the Carronite™ Baseboard, this unique frame, and foot set uses the added weight and thickness of our baths to deliver additional stability and security.

#### THE FINISH

Specially formulated, our unique Carronite™ finish results in increased rigidity while the density of the material allows greater heat retaining properties.

#### THE BASEBOARD

Custom baseboards, cut to size for each Carronite™ model, are applied by hand before the Carronite™ finish is applied.

**carronite™**

#### STRONGER

It's our patented process that creates the added strength found in all Carronite™ baths. A stronger bath is a more rigid bath, resulting in a more solid experience when bathing or showering.

#### WARMER FOR LONGER

Due to the extra finishing layers, Carronite™ baths are able to keep water temperature levels hotter for longer. Up to thirty minutes longer in some tests.

#### PEACE OF MIND

We are so confident in the quality and finish of our Carronite™ baths that we give every bath a 30-year guarantee. That's because Carronite™ baths are designed to last a lifetime.

The unique triple-layer reinforcement '**Carronite**' system that can be selected for any Carron Bath is the plumber and fitters' choice and boasts a 30 year manufacturer's warranty

# Freestanding

## BATHS

When you want to make a statement, you can't go wrong with a Freestanding Bath. With a variety of models to fit any bathroom style. From the sumptuous Celsius to the period details of the Highgate and Ascoli, these luxurious baths create real statement.

### Features.

Our ColourMatch service allows you to add colour to any freestanding tub.

# ColourMatch

To help create a bathroom that's as unique as you, we created Colourmatch. A unique service that allows you to choose a colour from your bathroom decor and Carron will colour your bath panel to create the perfect match.

## Ascoli

A traditionally styled, roll topped freestanding bath. All the style of a cast iron bath with all the benefits of acrylic.

1250 x 725 x 540mm	€637.00 02445	€990.00 02446

# Sitbaths

## RANGE

Within some of our Signature Ranges, we have several baths that add a little extra accessibility and functionality. These models also benefit from being more environmentally friendly as their reduced depth, which provides easy access, results in you needing less water to fill them. These features result in lower running costs and less impact on the environment.

### Features.

- RB** Rectangular Bath
- SE** Single End
- HG** Handgrips available
- C** Carronite™ available
- P** Panel available

Anthracite Handgrips available

# Corner

## BATHS

Corner baths are both practical and comfortable. They create an ideal bathing space, great for families with small children, and their compact footprint allows them to fit easily into smaller bathrooms.

### Features.

Styles range from the modern Clipper model to the more traditional Oriole.

Carronite™ available

## Clipper

Designed for the Scandinavian market, this minimalist tub was created to provide a greater bathing experience.

### Sizes & Prices.

# Carron Editions

The Editions range covers innovative new bath finishes, design details for new models and existing Carron favourites, and a range of accessories that will impact any bathroom interior. To add an extra layer of luxury and reliability, Editions baths comes with Carronite as standard.

## Editions Range Features.

### + Low Rim

All Editions baths are Low Rim. A subtle feature that transforms a standard bath rim into a cutting-edge design statement.

### + Matt Finish

These almost soft-feel baths bring a stylish look to compliment the comfortable bathing experience.

### + Anthracite Accessories

A simple, stylish addition to your bath that makes a real impact.

# Carron Editions<sup>+</sup>

BUILT IN BOX - FOR WALL MOUNTED BASIN MIXER

Compared with the traditional built-in mixer with diverter, the Remer built-in box has additional features that make it an item that was specifically designed for the construction sites needs. However, these boxes are becoming increasingly popular with end users due to their practicality. When designing your new bathroom it is important to consider the development stages for each of your bathroom fixtures. These first fix boxes allow your plumber to get the pipe work ready for the installation of your new basin mixer while you have the time to consider which basin mixer design would suit your bathroom. Then simply choose from the mixer designs below.

BUILT IN BOX - FOR CONCEALED VALVES

Compared with the traditional built-in mixer with diverter, the Remer built-in box has additional features that make it an item that was specifically designed for the construction sites needs. However, these boxes are becoming increasingly popular with end users due to their practicality. When designing your new bathroom it is important to consider the development stages for each of your bathroom fixings. These first fix boxes allow your plumber to get the pipe work ready for the installation of your new shower while you have the time to condiser which shower valve deisgn would suit your bathroom. Then simply choose from the shower valve designs below.

**AKW ARKA CARE SHOWER VALVE**

This gorgeous, simple to use Chrome Mixer Shower provides a stunning centre-piece to any shower. It features an easy-grip shower head with five different spray patterns and simple push buttons to adjust the height of the shower head. This package combines the popular Mixer Shower along with our Mixer Shower Care Accessory Kit which mixes ultimate style and a subtle design along with strong support when showering such as the sturdy stainless steel grab riser rail and extended 2 metre long shower hose which is a great help for assisted showering.

**FEATURES**

- + Integral stainless steel grab riser rail for additional support and peace of mind
- + Easy grip shower head with grey rubber petals for quick spray pattern adjustment
- + 5 Spray pattern settings for maximum showering comfort
- + Extended 2 meter shower hose ideal for assisted showering
- + Easy push buttons for shower head height adjustments.
- + Soap dish & shelf included as standard and situated within easy reach for user
- + Additional shower head bracket for alternative positioning within the enclosure
- + Hose retaining ring included to prevent shower head being dropped and contaminated
- + 1 metre riser rail can support up to 150kg
- + Fully approved by the Bathroom Manufacturers Association (BMA) as a Water Efficient Product

## TUFF FORM WETROOM FORMER

A wet room allows you to maximise the available space in your bathroom to create a stylish but practical showering solution. Our Tuff Form shower tray creates a full level access showering solution.

Not only do they create complete level access, they are also 100% watertight. Superior strength and rigidity providing excellent water integrity with comfort and safety underfoot.

TUFF FORM FORMER

### FEATURES

- + Suitable for both wooden and concrete floors
- + Works with gravity & pumped wastes
- + Tuff Form formers are trimmable on 3 sides up to 150mm from the waste area
- + The ribbed design of the underside eliminates slippage or float during installation
- + Superior strength and rigidity providing excellent water integrity with comfort and safety underfoot
- + Pre-formed fixing holes
- + Offset waste position to avoid joists pipework
- + Tuff-form depth is 22mm
- + Fully recyclable, made from reusable plastic
- + Tens of thousands of installations worldwide, so it's popular – and proven!

## MOBILITY

Everyone should be able to surround themselves with beauty and style and have the choice to personalise their space. This belief is core to the Niko Bathrooms collection of specialist mobility support products. Every piece has been developed with Occupational Therapist and Healthcare Professional input, to deliver a space filled with practical solutions and aesthetic beauty.

## BRADDEN SHOWER TRAY

With extensive choice and easy installation, Braddan is a long-term favourite among specifiers, installers and end-users. Unique design offers options for a surface mounted, level access or step in shower enclosure. Suitable for all installation types with no extra support needed. A slip resistant surface makes them safe to use.

### FEATURES

- + Suitable for all floor types
- + Quick draining, thanks to a 35mm fall to the waste
- + Integral added strength for extra peace of mind
- + No need for under tray foaming

## HALF HEIGHT SHOWER DOORS

Our complete range of half-height care shower screen solutions for both alcove and corner installations can help you create the perfect showering environment. With lifetime guarantees you can be assured of the best quality available.

Designed and developed with healthcare, installation and technical professionals this range of solutions for tray or wet room installations that provide ease of use, ease of installation and raise the bar on quality to ensure a longer life.

**Please note:** Bottom door seals are water barriers, not water proof. If using a curtain, it should be long enough to protect the doors seals.

**Please note:** Compensators are set at mid point giving 14.5mm in and out adjustment on one side. Screen width needs to be less than the length of the tray and provide adequate access for user. Screens only suitable for Pipe Duct Trays.

All prices include VAT

# FURTHER DOC M PRODUCT INFORMATION

## DOC M

Fully compliant to BS8300:2009 guidelines for a unisex accessible WC

### 2 tap hole wall mounted wash basin

This allows a mixer tap to be fitted left or right handed and with overflow for additional hygiene.

### Thermostatic sequential mixer tap

TMV3 approved offering peace of mind to reduce risk of scalding, the thermostat is within the mixer (and not separate, as in the case of others). This reduces the risk of legionella bacteria forming between separate parts.

### Easy operational flush handle

Allowing for flushing with elbow or hand. This also offers full and half flush operation for water saving. It comes in a non reflective stain chrome finish and can be fitted left or right handed. Confirms to EN 997.

### Raised height WC

Set at 460mm high (480mm with toilet seat), its specially designed for wheel chair access. It comes with 4 fixing points.

### Ergonomic toilet seat with lid

Metal hinges and lugs secure the pan for easier side transfer. In some doc m options its available in high visibility blue got users with impaired vision.

### Cistern

Has a screw down lid for security and safety

### Grab rails

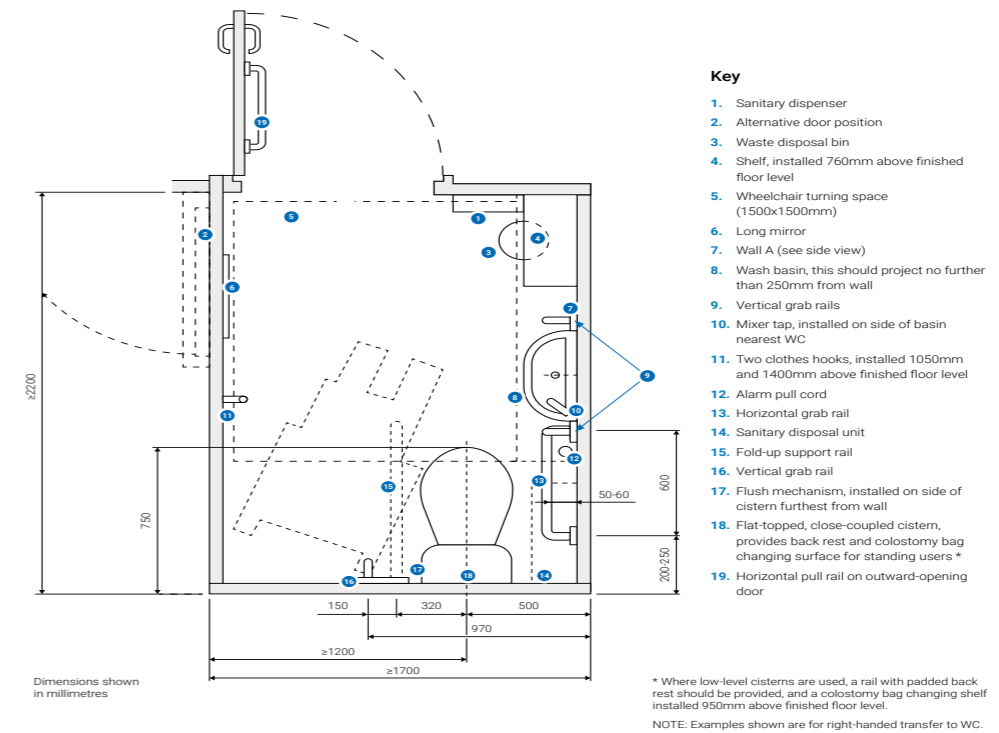

4 X 600mm long with concealed fixings (tested up to 190kg/ 33 stone weight). In some doc m options its available in high visibility blue got users with impaired vision.

### Fold up grab rails

Tested to 190kg/ 33 stone weight. In some doc m options its available in high visibility blue got users with impaired vision.

# DOC M PACK TYPICAL LAYOUT

## Doc M Installation – Side View

### Key

- 1. Wall A (see plan view)
- 2. Alarm pull cord with two red bangles
- 3. Vertical grab rails installed above wash basin 500-700mm apart with basin positioned centrally below
- 4. Colostomy bag changing shelf, installed 950mm above finished floor level \*
- 5. Sanitary dispenser, installed on wall adjacent to door, with coin slot positioned 750-1000mm above finished floor level
- 6. Automatic hand dryer
- 7. Soap dispenser
- 8. Paper towel dispenser
- 9. Toilet tissue dispenser
- 10. Alarm reset button
- 11. Centre of vertical grab rails should be 1100mm
- 12. Horizontal grab rail
- 13. Shelf, installed 760mm above finished floor level
- 14. Wash basin, mixer tap installed on side of basin nearest WC
- 15. Flat-topped, close-coupled cistern, provides back rest and colostomy bag changing surface for standing users \*

\* Where low-level cisterns are used, a rail with padded back rest should be provided, and a colostomy bag changing shelf, installed 950mm above finished floor level.  
NOTE: Examples shown are for right-handed transfer to WC.
